

25/5/2022-Växjö-Sweden

**A Call**

Dear Partners

As part of the capacity building, in-service training as well as course development work packages of our ICU and ICARE projects we are happy to invite the relevant staff who will take care about such activities in the future with the students (contact persons are welcome to attend, if they want, but they are not our target staff unless they are expert in the area of the seminar and will implement such knowledge in own courses and training of the students and others) to attend the seminar organised by our university and our network of other universities on 16 June 2022. Participants from EU partners are also welcome to attend.

One main role of the contact person is to distribute the invitation and suggest candidates to attend. Each partner university can nominate up to 6 highly relevant staff ( up to 2 students) and 2 form stakeholders). Each partner institution send me with cc to Valentina a list of its candidates with

Name-----

Affiliation-----

Position-----

e.mails address -----

the candidates can directly send us their registration interest .

After the registration, the candidates then get all necessary information before the event.

**The deadline to get your list and or direct candidate request is 2 June 2022****Ämne:** Welcome to the seminar "Taking healthcare everywhere" June 16 at 13:30EAST  
SWEDEN  
MEDTECH**Welcome**Linköpings universitet & Region Östergötland  
invite you to a seminar!**Ankica Babic**, professor in clinical informatics at IMT will give a presentation with the title:**Taking healthcare everywhere**

Clinical informatics has seen the development of systems that improved the flow of information, not only within close health information systems but also towards patients and other information systems. This seminar reflects on healthcare's digital transformation that led to improvement in efficiency and to precision care.

**When:** June 16, 13:30-15:00**Where:** TBA, it will be possible to join in the lecture hall or via Zoom**Language:** English

After the lecture, there will be time for questions.

**Linnaeus University -E-Health institution and the The Department of Biomedical Engineering (IMT) and East Sweden Medtech (ESMT) are co-organizers**

*Genom att anmäla dig till seminariet samtycker du till att Region Östergötland och Linköpings Universitet hanterar dina personuppgifter enligt dataskyddsförordningen, GDPR och att din e-postadress används för deltagande i seminariet och även sparas för framtida utskick och information. När du skickar e-post till Region Östergötland eller Linköpings Universitet så innebär det att Region Östergötland respektive LiU behandlar dina personuppgifter och hanterar dem enligt dataskyddsförordningen (GDPR). På vår webbplats kan du läsa mer om hur dina personuppgifter hanteras.*
